April, 2007

To the Mayor, Governing Body Members and Citizens of Manassas Park:

Presented herewith is the City of Manassas Park's FY2007-08 Adopted Budget. This document includes balanced budgets for the City's General Fund, Capital Projects Fund, Debt Service Fund, Water & Sewer Fund, PRTC Trust Fund and Bull Run ASAP Fund. The budgets for the various school funds are in a separate document and not included here.

The General Fund budget includes appropriations for the Schools, in accordance with the revenue sharing agreement, as well as funding for required debt service and all other anticipated operations.

Overview:

Preparing a balanced General Fund budget (without the use of reserves) was accomplished in spite of major revenue reductions due to a significant decline in the growth of the City's assessed values. In 2007 there was a 33% increase in the tax base, while 2008 taxable values increased by only 7%. Decreases of this magnitude and more were seen throughout Northern Virginia.

We continue to have increasing expenditure needs for equipment and infrastructure needs, additional services required from our work force, yet a relatively constant pool of available revenue sources. These expenditure growth and needs, without additional revenue sources require us to make difficult choices in regards to the budget. Providing high quality services and infrastructure to our Citizens is our highest priority.

We continue to maintain a "healthy" fund balance in the General Fund to provide for unforeseen contingencies.

Other General Fund Highlights:

- In order to stay competitive and retain existing police and fire personnel, the pay scales for Public Safety officers was increased significantly. Other general employees were budgeted with a 4% increase.
- Staffing of 2 additional Police Officers and 3 additional Firefighters/medics will be funded through additional revenues for traffic enforcement and billing for emergency medical services.
- Departmental management reserves have been eliminated.

The Capital Projects Fund and Debt Service Fund are balanced. The City's debt service payments are provided for within the "transfers" portion of the General Fund budget. Capital Projects will be funded from PRTC, VDOT and remaining bond proceeds for the Parks and Recreation building.

New for FY 2008 capital projects is funding of certain necessary and vital major projects through the use of short-term financing. The City will spend approximately \$1.9 million on projects (detailed on page 43) in FY 2008 with required debt service expenditure of \$302,000.

The Water & Sewer Fund budget has been prepared as if the City will continue those operations. However, the City is currently in discussions with the County Service authority to take over Water and Sewer services for the City.

Conclusion:

Budget challenges are common with governmental entities. As stewards for taxpayer dollars, we strive to provide additional, higher quality services at additional costs due to inflation and other factors, with a relatively stagnant, if not decreasing revenue stream. Simply put, trying to do more with less.

This budget represents significant work of the entire city team, including the Governing Body, to address the needs of our community. I sincerely thank the Governing Body for their oversight and concern for every Citizen; the department heads and city staff for their diligent efforts and sacrifices on behalf of the City. They have made difficult and informed decisions as stewards of City funds.

Respectfully submitted,

Mercury T. Payton,
City Manager

Fire & Rescue Services	26	29

Operations :

- The FY 2008 budget reflects a \$276,000 increase over the FY 2007 budget.

This increase is attributable to 3 new firefighter/EMS positions dedicated to EMS initiatives (funded through billings for EMS services); and significant salary and related employee benefits increases to become more competitive with surrounding jurisdictions. These increases are partially offset by the elimination of the departmental management reserve.
